

The Property Sauce brand.

Everything needed to reproduce the identity consistently: the mark, the wordmark, colour, type and voice, with files to download.

The mark.

A drop that reads as a roofline, with a paprika door. Property and sauce in one shape; a home with something warm inside it. It sits on a rounded tile so it holds up at favicon size and as a social avatar.

Property Sauce

Lettings, block and portfolio management,
and direct acquisition of residential blocks
across England.
